WILLIAM KURNIAWAN TAN

INFORMATION SYSTEMS UNDERGRADUATE | ERP & BUSINESS TECHNOLOGY

+62 813-8962-6969 | wktan06@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

A driven and dedicated Information Systems undergraduate at BINUS University who works well both individually and in teams, with a leadership experience in student council. My specialty comprises ERP and database solutions using SAP, Odoo, Oracle APEX. Experienced in designing app flows and interfaces, and turning complex business processes into practical, technology-driven solutions to minimize inefficiency using business technology tools. Fluent in Indonesian, English, and Hokkien.

EDUCATION

BINUS University | Bachelor's Program, Information Systems | GPA 3.77 / 4.00

EXPERIENCE

Istana Motor – Automotive Workshop | Business Analyst | Feb 2024 – Jan 2025

- Solved customer's specific needs on top of the workshop's daily workflow.
- Handled the order flow from request and service to billing, and recorded the service and transaction data, making them into a database.

SMA Santo Kristoforus 2 | Program Coordinator, Student Council (OSIS) | Jan 2024 – Mar 2024

- Coordinated student activities and worked with team members to plan each program.
- Ensured programs were well-organized and successfully executed.
- Built communication, teamwork, and leadership skills while managing responsibilities across a team.

PROJECTS

PT XYZ – Apparel Retail Industry (ERP Case Study) | Odoo

- Integrated the business process for procurement, inventory, sales, invoice, reporting, accounting.
- Improved the operational efficiency by automating the business processes and reduced the human error from manual processes.

PrintIN – On-Demand Printing App (UI/UX Case Study) | Figma

- Designed the app flow and interface in Figma, delivered as an interactive prototype.
- Let users upload a design, choose print specifications, and compare prices across partner print shops with a nearest-shop recommendation.
- Covered in-app payment, real-time production tracking, and pickup or courier delivery, so an order moves from request to finished print with minimal waiting.

Hampiness – Hampers Ordering App (UI/UX Case Study) | Figma

- Designed the app flow and interface in Figma for ordering hampers online from curated vendors.
- Covered package browsing, delivery scheduling (date, time, address, courier notes), courier or self-pickup options, and order status tracking.

ACHIEVEMENTS

Semifinalist, BCC Digital Innovation (DIG IN) | HIMSISFO BINUS | Dec 2025 – Jan 2026

- Case competition built around a Netflix case, organized by HIMSISFO BINUS.
- Competed in a team of three among more than 50 participating teams.

SKILLS

Core: Enterprise Resource Planning (ERP), Business Process Modeling (BPMN), Structured Query Language (SQL)
Tools: SAP, Odoo, Oracle APEX, Power Query, Power Pivot, Figma, SmartPLS, Microsoft Office (Excel, PowerPoint)
Methods: PLS-SEM, UI/UX Design (wireframe to prototype), Project Coordination
Soft Skills: Critical Thinking, Team Coordination, Communication, Teamwork, Leadership, Problem Solving
Languages: Indonesian, English, Hokkien
